ENERGY MANAGEMENT SYSTEM POLICY

Organik Kimya has accepted the achievement of energy efficiency as an integral part of its activities. Our goal is to ensure conscious use of energy while not compromising the quality of our products.

The principles are that Organik Kimya will apply in all of its processes in order to ensure and maintain energy efficiency as follows:

- To develop measures for determining energy risks in order to plan our production activities that are compatible with the environmental standards, and prioritize human health, to apply methods that will completely eliminate hazards or inefficiencies,
- To accept the provision and improvement of energy efficiency as an integral part of our activities, beyond the statutory obligations,
- To monitor and support environmental impacts and energy efficiency in the procurement of products and services, in the realization of new projects and investments,
- To continuously improve energy performance and enhance energy saving,
- To fulfill the risks arising during the activities we carry out, our legal responsibilities related to the energy dimensions,
- To plan our development and implementation activities in such a way as to prevent environmental risks that may occur and to reduce emissions caused by energy use,
- As an indicator of our sustainable development, to reduce environmental pollution, to continuously improve energy efficiency by ensuring the efficient use of energy and natural resources,
- To transmit the information related to energy efficiency and environment of our products and solutions to the relevant persons, institutions and organizations,
- To continuously monitor the progress in the goals and objectives, to provide the necessary information and resources for its realization
- To systematically review and update management systems for energy efficiency
- To fulfill our legal and other related compliance obligations within the framework of applicable legislation.

Ensuring and maintaining energy efficiency Organik Kimya Sanayi ve Ticaret A.Ş. is among the fundamental duties of all employees of the company
